

# AP Projects

ESG and SDG Consultancy

is an Austrian ESG and SDG consultancy with strong focus on project development and reporting especially in the luxury and fashion industry. AP PROJECTS is bringing expertise in project and technology implementations across supply chains, supply chain management and cross- industry knowledge into the team, as well as ESG standards and SDG compliance strategies. A special focus lies on competitiveness through Enterprise Sustainability and implementation of industry standards.

AP Projects works with major fashion brands and groups on the implementation of sustainable technologies and ESG reporting services and helps companies across the supply chain to adapt to given standards, implement timely reporting and integrate sustainability reporting and marketing into their business plans.

AP Project is also part of the UNECE Project on Traceability and Transparency offering supply chain insights for the implementation of cross-industry reporting standards.

Furthermore, AP Projects is regularly mentoring European start-ups offering impact driven solutions, developing actionable concepts and roadmaps and accompanying them throughout the phases of creation, ideation, pitching and customer acquisition.
